

Says

What have we heard them say?  
What can we imagine them saying?

Thinks

What are their wants, needs, hopes, and dreams?  
What other thoughts might influence their behavior?

Uber is a multinational transportation network company that operates a ridehailing platform.

Ube provides a convenient way for individuals to request rides from drivers who use their own personal vehicles.

It was founded in 2009 by Garrett Camp and Travis Kalanick and is based in San Grancisco, California.

Uber Driver Analysis refers to the Analyzing the number of trips taken by Uber drivers can provide insights into their overall activity.

And the demand for rides in specific areas.

Uber's data can be analyzed on a daily, weekly, monthly basis to undestand the trends and patterns of trip volumes.

Persona's name

Illuminating insights  
From uber  
expeditionnary  
analysis

This analysis can help Uber drivers decide where to focus their driving efforts for maximum efficiency and profitability.

The Major of our project is to use data Analyzing techniques to find unknown patterns in the Uber Drives dataset.

Uber's data can be analyzed on a daily, weekly, monthly basis to understand the trends and patterns of trip volume.

This analysis can help identify peak hours of days of high demand and optimize driver availability during those times.

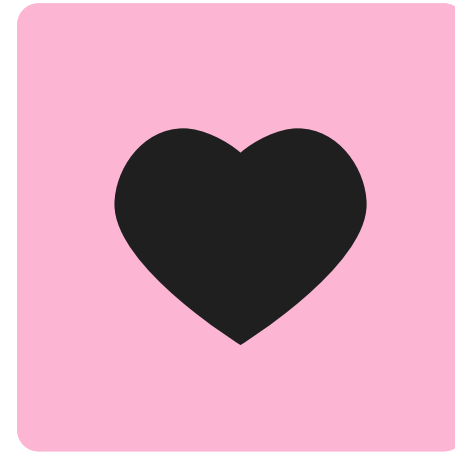

Trips can be analyzed based on geographic regions or specific cities to identify areas with higher demand.

Illustrating what's happening behind the scenes while customers are waiting. They making customers feel they are making continuous progress toward their goal.

Does

What behavior have we observed?
